

**ELIMINATE YOUR HIGH-CODE LEGACY CMS.
EMBRACE EASY, LOW-CODE SITE BUILDING.
ELEVATE YOUR DIGITAL EXPERIENCES.**

TeamSite is holding you back from your digital transformation.

Your customers expect you to deliver relevant content at the right time on the right devices. As your customers engage across more touch points, you need a way to pivot to adopt these new devices while still executing on your digital strategy. Don't let your high code, legacy CMS hold you back from driving your digital transformation forward at the pace your customers demand.

Accelerate your transformation with an open digital experience platform.

Acquia provides advanced features above Drupal's content management capabilities. It's no surprise that the world's leading brands come to Acquia to help them deliver an advanced digital experience using the Acquia DXP. It's why analyst firms like Gartner have ranked us a Leader in the 2020 Gartner Magic Quadrant for Digital Experience Platforms (DXP), and why companies across all verticals choose Acquia.

ACQUIA

No More Waiting. Leverage Low-Code from Day 1.

Legacy systems can often lead to high code, custom development issues. If they do offer low-code, it can take weeks or even months to configure. Acquia enables you to leverage low-code from day one with Acquia Site Studio.

Benefits:

- Give flexibility to marketers to create more content
- Grant freedom to designers to create beautiful designs
- Enable developers to focus on innovation

Never Migrate from a Proprietary Platform Again.

Choose Open.

Migrating from one CMS to another is no easy task. Ensure you never have to migrate from a legacy platform again by choosing the only Cloud Platform designed to support the world's leading open-source Content Management System, Drupal.

Benefits:

- Leverage innovative solutions created and shared by one of the largest open-source projects including over 40,000 modules
- Eliminate reliance on proprietary technology and capitalize on your investment in your martech tack
